Struggling to keep up with your customers?

Lost Leads

Potential customers slipping through the cracks while you juggle multiple systems and manual processes.

Missed Opportunities

Critical follow-ups forgotten, deals stalled, and revenue left on the table due to poor organization.

Endless Spreadsheets

Hours wasted managing data in disconnected files that don't sync, scale, or provide real insights.

CRM should simplify your business, not complicate it.

Luqa CRM Puts Your Business in Your Pocket!

AI-Powered Insights

Smart suggestions to close deals faster with predictive analytics and automated recommendations.

Mobile Apps for iOS & Android

Manage sales, leads & customers on-the-go with native mobile applications designed for productivity.

Smart Notifications

Never miss a follow-up or opportunity with intelligent alerts and reminders tailored to your workflow.

Automated Workflows

Save time, reduce errors, increase efficiency with customizable automation that handles repetitive tasks.

Customizable Dashboards

See what matters most in one glance with personalized views and real-time business metrics.

Seamless Integrations

Email, WhatsApp, Payments, and more - connect all your business tools in one unified platform.

Work from anywhere. Grow everywhere.
